J. H. EHLERS, CURATOR

December 11, 1919

Professor D. L. Crawford,
Pomona College,
Claremont, Cal.

Dear Sir:

In 1917 we had some correspondence in regard to an exchange of plant specimens. Through pressure of work due to war conditions, I neglected to carry out my part of the exchange. I now have several hundred plants ready to send you if you are still willing to enter upon exchange relations. Kindly let me know whether you wish me to send them.

In one of your letters you stated that you were offering for sale a set of Nicaraguan plants at \$10.00 per 100 sheets. Could you still furnish us with a set at that price should we decide to purchase it?

Very truly yours,

J. H. Ehlers
633 Church St.

*Dr. Wang - Please reply to this as
you see fit. The exchange relations
would be beneficial I am sure.*

D. L. Crawford
